RESEARCH EXPERIENCE

AUG. 2019 - PRESENT

Graduate Research Assistant at NATIONAL UNIVERSITY OF SINGAPORE, Singapore

NUS Computer Architecture Group Advisor: Prof. Trevor E. CARLSON

My current research spans around HW/SW co-design to build secure and efficient general-purpose processors. My focus is on microarchitectural attacks, including speculation-based attacks and power analysis attacks.

Jul. 2016 - Jun. 2019

Research Assistant at Sharif University of Technology, Tehran, Iran High Performance Computer Architectures and Networks (HPCAN) Lab

Advisor: Prof. Hamid SARBAZI-AZAD

Focus of my research has been on latency tolerant register files for GPUs through HW/SW cooperative register prefetching. I contributed to an ASPLOS'18 paper and an ACM TOCS paper. In collaboration with *Institute for Research in Fundamental Sciences (IPM), EPFL,* and *ETH Zürich.*

SUMMER 2018

Research Intern at NATIONAL UNIVERSITY OF SINGAPORE, Singapore

Advisor: Prof. Trevor E. CARLSON

As a visiting research assistant, I investigated the potentials of out-of-order commit in modern processors and explored implementations (simulation+compiler) to enable efficient out-of-order commit.
